Hostel Attendance Reports Through Mobile Application

Filter the From date and To date and click on Download CSV to download the Hostel Attendance Report.

BENEFITS OF USING THE HOSTEL MANAGEMENT SYSTEM!

- **Efficient Management and Execution of Tasks :** When all management-related tasks, such as allotment of rooms, mess payments, disciplinary issues, fees management, and other hostel activities are handled efficiently with an integrated system, your institute's efficiency will go up.
- **Accurate Student Data Management :** With all student-related information on a centralized platform, including their personal information such as name, address, parent or guardian's mobile number, etc., our system will make it seamless for your management and staff to keep track.
- **Easy Access to Data :** With easy access of data to authorized personnel at any given point in time from anywhere on any device, there will be nothing preventing any staff member from doing their job at the right time.
- **Robust Student Security :** Our software helps you keep your students secure as it keeps track of visitors, students in-and-out time, and student attendance. This will also help maintain transparency while ensuring student security in the hostel campus.
- **Transparency :** Our software will be integral in helping you develop trust between the parents, students, and management by creating transparency at the administrative and all other levels of management.
